Power Pack

It's the most powerful power pack we've ever made and is definitely a giant leap in the Godox innovation history. Integrating technology, engineering, and craftsmanship, its power, speed, and consistency are all breathtaking.

Flash Duration
1/17800(t0.1)

Recycling in 0.7s
at Full Power

Control Range over
10 f-stops in 1/10 f-stop
Increments

Dual Flash
Outlets

Modeling Light
60W

Breakthrough Power

Even photographing in large-scale or complicate sets is no challenge for this robust beast.

- Never miss any detail of your shooting subjects. You can choose the low ISO value and reduce aperture to increase depth of field so that you can easily obtain perfect images.
- Never worry about high-volume continuous shootings.
It greatly boosts your productivity thanks to its consistent output, enabling you to capture more quality shots without breaking the flow.
- Boldly use with hundreds of light modifiers to simulate natural light sources and create a wide range of soft light without worrying about losing power.

P2400

Let the Speed Blow You Away

- With an incredibly short flash duration of up to 1/17800s, it allows you to freeze every instant dynamic movement in sharp, unexceptionable detail.
- The recycling time is even faster in FREEZE mode, giving you the confidence that you will never miss a wonderful moment as you don't have to wait for the flash.
- A thoughtful design on the recycling time which allows

you to adjust based on your different power supply condition. Fast or slow recycling time are all at your disposal.

Uncompromising Color Consistency

In stable color temperature mode it ensures ultimate color consistency from flash to flash, satisfying your strict requirement on color accuracy and saving your time, money in post-production.

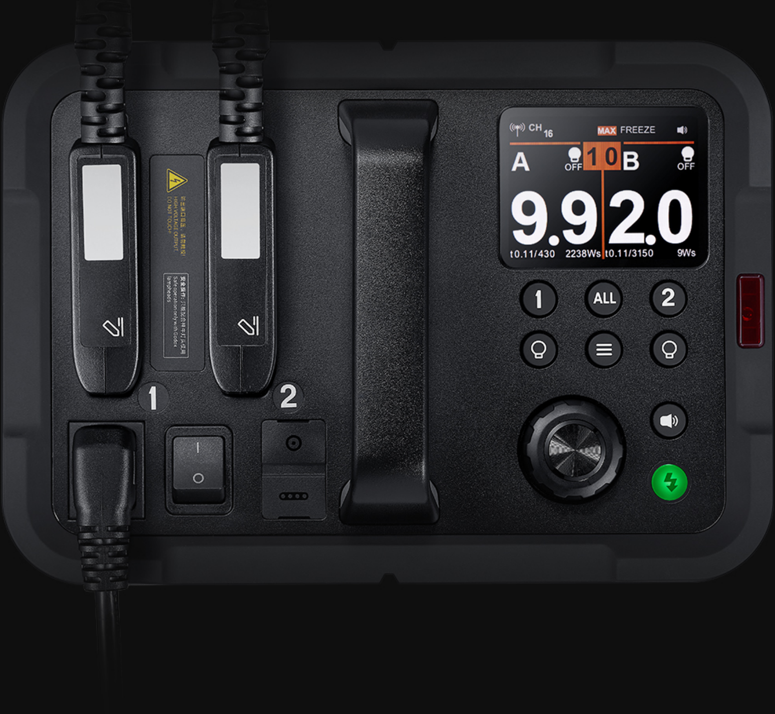
Symmetrical or Asymmetrical? It's up to You

It supports fully symmetrical and asymmetrical power distribution over two flash outlets. So not only can you distribute the same power between the two heads.
But you also can experience unparalleled flexibility to control each outlet independently and tremendous creative freedom to play with various lighting possibilities.



Intuitive and Precise Control

Enjoy a simple, smooth, and efficient interactive experience thanks to the large high-definition color screen and intuitive interface. Finely adjustable in 1/10 f-stop increments from 4.6 up to 2400Ws, it offers you 512 steps power ratio range to achieve precise control.

A Versatile Flash Head To Set Your Creativity Free

- Zoomable Flash Head

Specially designed for the P2400, the flash head is zoomable by simply rotating the knob back and forth to achieve precise control of the light range and intensity.

H2400P Flash Head(optional)

Ultrabright LED Modeling Light

The 60W LED modeling light outputs impressive brightness which is equivalent to that of a 300W halogen lamp. Thanks to the advanced light tube technology, it simulates the actual flash effect more realistically. So you can have a much more precise preview of how the light falls on your subject.

Bowens Mount

Equipped with the most popular Bowens mount it enables you to use with a wide variety range of light modifiers, opening up more creative possibilities.

Shoot With Unrivalled

Connectivity

Two Different Frequency Systems

Built-in with the 2.4G and 433 MHz wireless trigger systems, you can freely switch between to avoid the interference and enjoy a reliable shooting environment. It's compatible with Godox triggers like X2, XPro, X1, and FT-16.

Tech Specs

P2400

Output Power	2400Ws
Flash Duration Time(fastest)	≈1/17800s(t0.1)
Step	1.0~10
Color Temperature Stability	±75K over full power range
Flash Mode	Manual Multi-flash
Multi-flash	√ (times: 100, frequency: 100)
Delay Flash	0.01~30s
Mask	√
Fan	√

Beeper	√
LED Modeling Light	60W
Optic Receiver Flash	S1/S2
Flash Duration Indication	√
Display	3.5inch color screen

2.4G Wireless Transmission

Wireless Function	2.4G	Receiver, Off
Controllable Receiver Groups	2.4G	16 groups: 0~9, A, B, C, D, E, F
Transmission Range	2.4G	Approx. 100m
Channel	2.4G	32 channels from 1 to 32
ID	2.4G	99 IDs from 01 to 99

433MHz Wireless Transmission

Wireless Function	433MHz	Receiver, Off
Controllable Receiver Groups	433MHz	16 groups: 0~9, A, B, C, D, E, F
Transmission Range	433MHz	Approx. 30m
Channel	433MHz	32 channels from 1 to 32

Power

Power Supply	AC Power Supply
Recycling Time(fastest)	≈0.7s at full power
Energy-saving	Can be set to power off automatically after 30, 60, 120 minutes

Sync Triggering Method	3.5mm sync cord

Size

Dimension	330*287*202mm
Net Weight	≈11Kg
